## Hurlburt Skeet Club Membership Benefits

- Wanting to take your game to the next level?
- Going on a hunt and want to outshoot your buddies?
- Looking to quit poking holes in the air and start smashing clays?

Hurlburt Skeet Club (HSC) members enjoy unlimited access to the club and its facilities seven days a week, from sunrise to sunset. Club members have unlimited guest privileges and may arrange to sponsor and/or host special shoot programs for clients, private social events, fraternal, youth, and church groups, and so forth.

Reloadable card to pre-purchase rounds.

Member receives a per round discount on birds.

Due to insurance constraints, non-members are not allowed to use the rifle and pistol ranges unless escorted by a current member as a bonafide guest.

Secure time for a lesson and enjoy a better and more comfortable shooting experience! Our Standard Operating Procedures and calendar of events may be downloaded from the 1st Special Operations Force Support Squadron website:

[www.myhurlburt.com/pages/skeet.html](http://www.myhurlburt.com/pages/skeet.html)

## Member of the National Skeet Shooting Association (NSSA)

The Hurlburt Skeet Club is a member of the National Skeet Shooting Association (Club # 16543), an 80 year old organization with 20,000 members that determines the rules and regulations regarding this great sport for all ages.

HSC is one of the few clubs offering NSSA Certified Instructors. Trained to assess a myriad of problems associated with shotgunning to improve your scores!

A “Patterning Board” is located to the right of Field 3 and is designed for lead shot no larger than 7 1/2, fired at a nominal distance of 17-20 yards. Standing closer will yield poor results and damage the board. The board is coated with white grease so when shot, a clear pattern of your shot is displayed. This visual tool can yield valuable information regarding your gun and the type of ammo being used at the time.

Experienced NSSA shooters are encouraged to go online and obtain a referee’s test, fill it out

and pay the \$5 referee’s fee. This fee is only required if you are interested in refereeing the larger shoots such as State, Regional and World shoots. Local shoots select referees based upon experience and completion of referee training classes.

## **SAFETY, It’s Everyone’s Job!**

Safety is rule number one! By both rule of the Hurlburt Skeet Club and NSSA rules, “No shot size larger than 7 1/2 is permitted to be fired on skeet fields.” Note, #9 shot is smaller gauge than #8 shot; #6 shot is larger than #7 1/2 shot. *SHOOTERS ARE ENCOURAGED TO CHECK THEIR SHELL BOX BEFORE SHOOTING SHELLS.*

We appreciate our members adhering to gauge rules to keep our club a safe and fun place to shoot the sport we love!

The following Shot Chart depicts gauge/bore, shot sizes, weights, pellet counts and number of typical loads per pound of chilled lead shot.

## Shot Chart

Typ. Gauge/Bore	410	410	28	20/12	20/12	12	
Weight - Ounces	1/2	5/8	3/4	7/8	1	1 1/8	
Weight - Grains	219	273	328	383	438	492	
Loads per Lb.	32	26	21	18	16	14	
Size	Dia. - In.	Approximate Number of Pellets per Load					
7 1/2	0.095	173	216	259	302	345	388
8	0.090	205	256	307	358	409	460
8 1/2	0.085	240	300	360	420	480	540
9	0.080	293	366	439	512	585	658
