WELCOME!

I know that you will find, as I have, that Hurlburt Field is not only a premiere assignment, but also a wonderful community. As the Director of Airman & Family Readiness, my staff and I extend a personal welcome to you and your family. During your introduction to the base, I am confident you will be impressed with our facilities, the professionalism, and the area's southern hospitality. Whether you live on-base or in one of our neighboring towns, you will soon be calling Hurlburt Field "home".

Here at the Airman & Family Readiness Center, we stand ready to serve as your personal consultants and advisors on work-life issues. Our services range from getting you familiar with the area, understanding all your relocation benefits, getting a handle on personal finances, preparing you and your family in meeting the challenges of "commando" life and our operations tempo, assisting your family members with employment, or linking you to volunteer opportunities on-base or in the community.

A tool that you can access 24-hours a day on a toll-free line or web site is, **militaryone source**, that gives you instant access to information and resources you want, when you want them, and how you want them. To access it, call 1-800-707-5784, or use the online resources at www.militaryonesource.com.

We hope to see you in the Airman & Family Readiness Center soon! In the meantime, please feel free to contact us if we can assist you in anyway.

DOES YOUR FAMILY HAVE A HURRICANE ACTION PLAN?

Planning, preparing, evacuating and sheltering tips are important information that you will find at the Airman & Family Readiness Center. Ask for a copy of their hurricane pamphlet.

A hurricane is a violent storm originating over tropical or sub-tropical waters with sustained (constant) winds of 74 miles per hour. The winds, as in tropical depressions and storms, blow in a counter-clockwise direction and around the center. Diameter of these storms may range from 100 to 1,000 miles. The Atlantic Ocean hurricane season officially begins on June 1 of each year and continues until November 30. August and September are the busiest months, both in the number of tropical disturbances and in the intensity of the storms. Hurricanes and tropical storms have been known to occur during all months of the year except February.
